Lindsay Andrews-Wiebusch, Ph.D.

Staff Psychologist

Education

University of Southern Mississippi, Counseling Psychology, 08/2014

Internship: Southern Arizona VA Health Care System, 2014

Postdoc: Minneapolis VA Health Care System

Academic Appointment(s)

University of Southern Mississippi - Adjunct Faculty 2016 - 2017

Clinical/ Services Delivery Responsibilities

Serve as the PTSD/SUD psychologist and DBT team co-lead. Provide services to veterans on both the Addiction Recovery Service (ARS) and Team L (PTSD team). Provide a range of individual and group treatments for individuals with trauma and/or substance use concerns, including Prolonged Exposure, Cognitive Processing Therapy, Written Exposure Therapy, Dialectical Behavior Therapy, and Acceptance and Commitment Therapy. Co-lead the Men's MST group.

Research Interests

Research has historically been in the area of career-related constructs and impact on behaviors. Additionally interested in program evaluation, especially in regards to trauma-related treatments.

Honors and Recognitions

ACT/National Career Development Association - Graduate Research Grant Recipient (2010)

Clinical/ Services Delivery Responsibilities

Outpatient Mental Health in Community-based outpatient clinic.

Provide outpatient individual, couples, and group psychotherapy, psychological evaluation and assessment, and risk assessment/crisis intervention. Focus areas include mood disorders, anxiety disorders, couples therapy, transgender identity, brief-psychotherapy interventions, and multicultural issues.

Theoretical orientation is third-wave mindfulness-based behavioral therapy; Acceptance and Commitment Therapy (ACT), Dialectical Behavior Therapy (DBT), and Mindfulness-Based Cognitive Therapy (MBCT). Also use exposure-based treatments for trauma and anxiety disorders.

Participate in weekly psychiatric consultation team meetings and contribute to multidisciplinary treatment planning.

Research Interests

Treatment outcomes, supervision and training, multicultural competence, and applied professional ethics.

Carol Chu, Ph.D.

Staff Psychologist/Clinical Investigator

Education

Florida State University, Clinical Psychology, 2018

Internship: McLean Hospital/Harvard Medical School, 2018

Postdoc: Military Suicide Research Consortium/Army Study to Assess Risk and Resiliability

Academic Appointment(s)

Assistant Professor (Research, Tenure-Track), Department of Psychiatry, University of Minnesota - 2020

Clinical/ Services Delivery Responsibilities

Dr. Chu is a staff psychologist on Team B providing evidence-based individual and group psychotherapy to Veterans with mood and anxiety disorders and other psychiatric conditions. She specializes in working with Veterans at high risk for suicide and Dialectical Behavior Therapy.

Research Interests

Dr. Chu's translational suicide prevention research program focuses on enhancing identification of Veterans at high risk for suicide and facilitating connection to care. Her work incorporates longitudinal designs and multiple methods, including functional brain imaging, neurochemistry, behavioral tasks, self-report measures, and ecological momentary assessment. Dr. Chu's recent projects focus on characterizing biological and psychosocial correlates associated with elevated suicide risk, impaired social functioning, and reduced treatment help-seeking among high-risk veterans recently discharged from inpatient hospitalization. She is particularly interested in neural circuitry and neurochemical biomarkers for suicidal behavior, including oxytocin and cortisol.

Clinical/ Services Delivery Responsibilities

Staff psychologist working half-time in Team-L (Posttraumatic Stress Recovery Team) and Couple and Family services. Trauma focused clinical work includes empirically based individual and couples assessment/treatment, including PE, CPT, and CBCT. In addition, half-time is dedicated to Couples and Family services providing evidence based systemic interventions within dyadic relationships. Clinical work in this area is focused on relationship distress based in the application of empirically based treatments for couple therapy, specifically IBCT. Final area of clinical responsibility is as a training supervisor. The majority of supervision is provided as the facilitator of the Family Therapy Training Clinic (FTTC). This clinic is an adjunctive training opportunity focused on providing interns, post-doctoral fellows, and staff with experience assessing, treatment planning, and treating couples from a systemic framework.

Research Interests

Research interests fall within the intersection of trauma anxiety, relational systems, and masculinity. I am currently participating as a providing clinician in the initial research for a treatment protocol which includes veterans' supportive relationships in PE for PTSD. Recently, I have joined a research team as a consultant and providing clinician for a study focusing on an IBCT infused PE protocol.

Selected Presentations (Last Seven Years)

Possis, E. A., Scholljegerdes, K., Skroch, B., Kathawalla, U., Finn, K., Crawl, H., Jones, E. J., & Olson, D. (2020). Partnering with Pharmacy in Primary Care: New Directions for Primary Care Mental Health Integration. Poster session presented at the 128th annual meeting of the American Psychological Association, Washington D.C.

Crawl, H., Bemmels, H., Bronars, C., Valenstein-Mah, H., Possis, E., Skroch, B., & Mallen, M. (2019). Providing ACT group intervention for veterans with chronic pain in primary care. Poster session presented at the 127th annual meeting of the American Psychological Association, Chicago, IL.

Possis, E., Hintz, S., Skroch, B., Palmer, R., Moore, K., Crawl, H., Bemmels, H., Bronars, C., Mallen, M., & Olson, D. (2019). Cognitive Behavioral Therapy for Insomnia in Primary Care: Initial Findings. Poster session presented at the 127th annual meeting of the American Psychological Association, Chicago, IL.

Possis, E., Vorobyov, Y., Mallen, M., Bronars, C., Crawl, H., Hintz, S., Moore, K., Skroch, B., & Olson, D. (2018) "Employing Patient Aligned Care Team Marketing to Increase Cognitive Assessment in Primary Care." Poster session presented the annual meeting of the American Psychological Association, San Francisco, CA.

Possis, E., Mallen, M., Bronars, C., Crawl, H., Hintz, S., Moore, K., Skroch, B., & Olson, D. "Enhanced Mental Health Screening and Services for Patients Initiating VA Care." Poster session approved for the annual meeting of the American Psychological Association, San Francisco, CA.

Possis, E., Hintz, S., Mallen, M., Bronars, C., Moore, K., Crawl, H., Skroch, B., & Olson, D. "Increasing Provider Fidelity to the Co-Located Collaborative Model." Poster session approved for the annual meeting of the American Psychological Association, San

Francisco.

Mallen, M., Hintz, S., Possis, E., Skroch, B., Bilig, J., Hames, J., Hamdi, N., Bronars, C., & Crowl, H. (2016, August) Increasing physicians' use of primary care mental health integration services: Effects of co-located, collaborative care psychologists in primary care clinics. Poster presentation at the APA Conference, Denver, CO.

Crowl, H., Nair, M., Kong, E., Raffel, K., Berchuck, J., Yee, K., & Epstein, S. (2015, May). Improving rates of physical therapy attendance for a homeless primary care population. Poster presentation at the University of California, San Francisco Quality & Safety Innovation Challenge Symposium, San Francisco, CA.

Gerdin, T., Wiarda, N., Crowl, H., & McMinn, M. (2013, April). Religious Commitment and Life Satisfaction with Older Adults. Poster presentation at the International CAPS Conference, Portland, OR.

Rowl, H., McMinn, M., & Thorstad, R. (2012, August). Effectiveness of research-based training curriculum for caregivers of the sexually abused. Poster presentation at the APA Conference, Orlando, FL.

Rowl, H., McMinn, M., & Vasiliauskas, S. (2012, August). Avoidance and revenge as predictors of spiritually based forgiveness. Poster presentation at the APA Conference, Orlando, FL.

Vgel, M., Crowl, H., & Goetsch, B. (2012, August). Training the next generation to be competent with issues of religious and spiritual diversity: Efforts at APA-accredited doctoral programs and pre-doctoral internships. Poster presentation at the APA Conference, Orlando, FL.

Now, K., Gray, G., Crowl, H., & Smithberger, A. (2011, August) Building youth resilience with words and watercolors: An evaluation of psychoeducational and experiential approaches. Poster presentation the APA Conference, Washington, DC.

Selected Publication (Last Seven Years)

Possis, E., Vorobyov, Y., Mallen, M., Thuras, P., Moore, K., Hintz, S., Bronars, C., Crowl, H., Skroch, B., & Olson, D. (2019). Using Patient Aligned Care Team Marketing to Identify Cognitive Impairment in Primary Care. *Families, Systems, and Health*, 37 (1), 56-61. <http://dx.doi.org/10.1037/fsh0000390>

Gray, G., Crowl, H., & Snow, K. (2012). What's our responsibility? How individuals and organizations can proactively address human trafficking. *Journal of Applied Research on Children: Informing Policy for Children at Risk*, 3 (1).

Clinical/ Services Delivery Responsibilities

Dr. Curry is a staff psychologist currently serving as the chair of the Disruptive Behavior Committee. His clinical activities are primarily with the Neuropsychological and Psychological Assessment Clinic (NPAC) and Mental Health Intake (MHI), in addition to some individual and group psychotherapy, anger management, and smoking cessation. His primary theoretical orientation is cognitive behavioral, with additional training and experience in Time-Limited Dynamic Psychotherapy, Dialectical Behavioral Therapy, EMDR, and is a certified Cognitive Processing Therapy provider. He currently serves as one of two regional trainers for Cognitive Processing Therapy in VISN 23. He was the site assessment technician for VA Cooperative Study #519: Integrating Practice Guidelines for Smoking Cessation into Mental Health Care for Posttraumatic Stress Disorder and was a faculty member for the learning collaborative that trained VA clinicians in integrated smoking cessation treatment. He was the local site investigator for CSP #591: Comparative Effectiveness Research for Veterans with PTSD (CERV-PTSD), a study comparing prolonged exposure and cognitive processing therapy in veterans with military trauma. In addition, he is a Psychological First Aid (PFA) trainer for the Metro Hospital Compact behavioral health workgroup.

Research Interests

Treatment outcome and test interpretation feedback.

Honors and Recognitions

Member, American Psychological Association

Member, APA Division 17 (Society of Counseling Psychology)

Member, APA Division 18 (Psychologists in Public Service)

Member, APA Division 19 (Society for Military Psychology)

Member, International Society for Traumatic Stress Studies

VISN 23 Mental Health Team of the Year, 2008

Selected Presentations (Last Seven Years)

Leskela, J. & Curry, K. T. (October, 2012; April, June, July & September 2013, January 2014). Integration of tobacco cessation treatment into mental health. Minneapolis VA Health Care System, Minneapolis, Minnesota.

Meyers, L., Leskela, J., Thuras, P., Strom, T., Kehle, S. M., & Curry, K. T. (2011, August). Service utilization following participation in Cognitive Processing Therapy (CPT) or Prolonged Exposure Therapy (PE) for Post-traumatic Stress Disorder. Poster session presented at the VHA Mental Health Conference, Baltimore, MD.

Curry, K. T., Leskela, J. A., Erbes, C. R., Pavlik, K. M., Polusny, M. A., & Gulden, A. M. (2007, August). Treatment Adherence, Premature Dropout, and Symptom Presentation in OEF/OIF Returnees. Poster session presented at the annual meeting of the American Psychological Association, San Francisco, CA.

Petska, K. S., Kattar, K. A., & Curry, K. T. (2007, August). Cognitive processing therapy. Poster session presented at the annual meeting of the American Psychological Association, San Francisco, CA.

Selected Publication (Last Seven Years)

Meyers, L. L., Strom, T. Q., Leskela, J., Thuras, P., Kehle-Forbes, S. M., & Curry, K. T. (2013). Service utilization following participation in cognitive processing therapy or prolonged exposure therapy for post-traumatic stress disorder. *Military Medicine*, 178, 95-99.

Curry, K. T., & Hanson, W. E. (2010). National survey of psychologists' test feedback training, supervision, and practice: A mixed-methods study. *Journal of Personality Assessment*, 92, 327-336.

Sheena Czipri, Psy.D., ABPP

Staff Neuropsychologist

Education

Roosevelt University, Clinical Psychology, 08/02/2015

Internship: James A. Haley Veterans Hospital, 2015

Postdoc: James A. Haley Veterans Hospital

Academic Appointment(s)

University of St. Thomas (adjunct instructor, 2018-present)

Clinical/ Services Delivery Responsibilities

Inpatient, comprehensive outpatient, and brief walk-in services of neuropsychological consultation and assessment to individuals with a broad range of neurologic, psychiatric, and medical diseases/disorders.

Research Interests

Research interests include access to care in neuropsychological settings, implication of cognitive screening in older adult populations, cognition and outcomes in transplant populations, and functional outcomes of neuropsychological evaluation.

Honors and Recognitions

James A. Haley Veterans' Hospital, MH&BS, Certificate of Commitment (2016)

Staff Psychologist

Education

The University of Texas at Austin, Clinical Psychology, 08/2015

Internship: Minneapolis VA Health Care System, 2015

Postdoc: Minneapolis VA Health Care System - CAB Lab

Academic Appointment(s)

2019-Present Assistant Professor, Department of Psychiatry, University of Minnesota Medical School

Clinical/ Services Delivery Responsibilities

Provide mental health services to community based outpatient clinic.

Research Interests

Polygenic predictors of post-deployment psychopathology, novel applications of neuromodulation techniques in a VA setting, active involvement with international consortia on genetics, PTSD, and mTBI (e.g. PGC, CENC, ENIGMA) including overseeing PGC-PTSD TBI Workgroup.

Honors and Recognitions

NA

Selected Presentations (Last Seven Years)

Disner, S.G., Baker, D., Beckham, J., Bryant, R., ... Koenen, K., and the PTSD Working Group of the Psychiatric Genomics Consortium. (2020, May). Efforts to Characterize Traumatic Brain injury in Cohorts from a Large-Scale PTSD Genetics Consortium: Harmonization Results from the PGC-PTSD TBI Workgroup. Poster accepted for presentation at the annual meeting of the Society of Biological Psychiatry. Note that this meeting was ultimately cancelled due to COVID19-related restrictions.

Clausen, A.N., Rubright, E.C., Monsour, M., Haswell, C., Salminen, L., Fercho, K., Disner, S., Morey, R., & ENIGMA-PGC PTSD Neuroimaging Workgroup. (2019, December). The Utility of Brain Age Gap Estimation (BrainAGE) as a Biomarker for Accelerated Aging in PTSD. Poster presented at the annual meeting of the American College of Neuropsychopharmacology in Orlando, FL.

Disner, S.G., Schaefer, J., Noorbaloochi, S., Arbisi, P., Erbes, C., Polusny, M., & Sponheim, S.R. (2019, October). Polygenic Correlates of Post-Deployment Symptom Trajectories in National Guard Soldiers. Poster to be presented at the annual meeting of the World Congress of Psychiatric Genetics in Los Angeles, CA.

Shen, C., Demro, C., Disner, S., Hendrickson, T., & Sponheim, S. (2019, September). Prediction of brain age in individuals with psychotic disorders and their biological relatives. Poster presented at the annual meeting of the Society for Research in Psychopathology in Buffalo, NY.

Disner, S.G., Davenport, N.D., & Sponheim, S.R. (2019, May). White Matter Integrity Linked to Genetic Correlates of Subjective Well-Being in Combat-Exposed Veterans. Poster presented at the 74th annual meeting of the Society of Biological Psychiatry, Chicago, IL.

Disner, S.G., Nelson, N.W., Lamberty, G.J., Anderson, C.R., Doane, B.M., & Sponheim, S.R. (2018, November). Impact of Blast mTBI on Cognitive Functioning is Dependent on PTSD Symptom Severity. Poster presented at the annual meeting of annual meeting of the International Society for Traumatic Stress Studies in Washington, DC.

Disner, S.G., Nelson, N.W., & Sponheim, S.R. (2018, September). Polygenic Predictors of Cognitive Sequelae Related to PTSD. Poster presented at the annual meeting of the Society for Research in Psychopathology in Indianapolis, IN.

Salminen, L., Veltman, D., Koch, S., van Zuiden, M., Olff, M., ... Disner, S.G. & Morey, R.A. (2018, February). Hippocampal Subregion Abnormalities in Current and Lifetime PTSD: International Analysis from the PGC-ENIGMA PTSD Working Group. Paper presented at the annual meeting of the International Neuropsychological Society in Washington, DC.

Disner, S.G., Marquardt, C.A., & Sponheim, S.R. (2017, November). Spontaneous neural activity differences in posttraumatic stress disorder: A quantitative resting-state metaanalysis and fMRI validation. Poster presented at the annual meeting of the International Society for Traumatic Stress Studies in Chicago, IL.

Disner, S.G. (2017, November). Mild Traumatic Brain Injury (mTBI): Proposal Discussion. Presentation given at the biannual meeting of the Psychiatric Genomics Consortium – PTSD Working Group in Chicago, IL.

Disner, S.G., Marquardt, C., Mueller, B., Burton, P., & Sponheim, S.R. (2017, September). Trauma Exposure Moderates Spontaneous Neural Activity Differences between PTSD Cases and Controls. Poster presented at the annual meeting of the Society for Research in Psychopathology, Denver, CO.

Hollowell, C., Lynn, P., Disner, S.G., & Sponheim, S.R. (2017, September). The Relationship Between Auditory Processing and Symptom Dimensions in Patients with Psychotic Disorders. Poster presented at the annual meeting of the Society for Research in Psychopathology, Denver, CO.

Selected Publication (Last Seven Years)

Tom Farrington, Psy.D., ABPP

CBOC Program Manager, Psychology Supervisor

Education

University of Denver, Clinical Psychology Psychology, 2010

Internship: University of Denver Consortium - Nicoletti-Flater Associates, 2010

Postdoc: NA

Academic Appointment(s)

Clinical/ Services Delivery Responsibilities

Responsible for managing mental health services for Community Based Outpatient Clinics (CBOCs) as well as providing supervisory duties for psychologists in the CBOCs. Frequently interfaces with community resources as well as other VA hospitals in an effort to provide the best possible mental health care to veterans. Collaborates with other program managers and executive leadership with a goal of insuring reliable access to state of the art mental health care.

Provides functional assessment and diagnostic services for Veterans with a broad range of psychopathology receiving care both within specialty mental health teams, including services for patients with complex psychopathology requiring advanced psychodiagnostic skills. Consults with multidisciplinary care teams and other mental health staff to determine appropriate treatment options for Veterans. Demonstrates expertise in using contemporary interview and psychometric assessment methods for mental disorders and/or behavioral health conditions. Provides education to patients and family members regarding mental disorders and best practices approaches to treatment. Collaborates with multidisciplinary care and mental health specialty staff to develop a comprehensive treatment plan that addresses both physical and mental health concerns. Assists the Team Leader and/or Program Director in the design, development, and implementation of clinical assessment and/or intervention programs. Adheres to operational policies and procedures for the treatment team, established by the affiliated Team Leader, Program Director, and/or Service Line Leader. Assists the Team Leader and/or Program Director in the execution of ongoing program evaluation and data-driven quality improvement projects to monitor the effectiveness of the clinical program. Facilitates liaisons with other health care programs in order to effectively coordinate services.

Jacob Finn, Ph.D.

Staff Psychologist

Education

The University of Tulsa, Clinical Psychology, 2012

Internship: Minneapolis VA Health Care System, 2012

Postdoc: Kent State University Department of Psychological Sciences

Academic Appointment(s)

Adjunct Assistant Professor, Research Track, Department of Psychiatry, University of Minnesota, 2016

Clinical/ Services Delivery Responsibilities

I provide psychological assessment services, particularly personality and psychopathology assessment, to the Chronic Pain Rehabilitation Program (CPRP) and the Polytrauma Transitional Rehabilitation Program (PTRP).

Research Interests

My research focuses on three areas: 1) dimensional models of personality and psychopathology (e.g., HiTOP, AMPD); 2) the use of psychological phenotypes for individualized care; and 3) the role of interpersonal functioning and relationships on rehabilitation and recovery.

Clinical/ Services Delivery Responsibilities

I am a staff psychologist on the Primary Care Mental Health Integration team. I provide integrative behavioral health care within primary care (4E/4F). This includes targeted assessment and brief evidence-based treatments. My clinical interests include behavioral health services in primary care, health psychology, chronic pain, and insomnia.

Research Interests

My interests are primarily based on quality improvement within primary care and health psychology in areas such as gender diverse healthcare and chronic pain. Additional interest areas include culturally sensitive care and clinical supervision.

Clinical/ Services Delivery Responsibilities

In my current role, I function as an integral member of the Mental Health Intake Clinic (MHI), an interdisciplinary treatment team whose primary mission is to connect treatment-seeking Veterans to mental health services. I complete diagnostic interviews/intakes, psychological assessments and triage the needs of Veterans who are predominantly new to mental health care. I also provide general mental health care including short-term, evidence-based intervention and brief, solution-focused therapy to bridge patients from MHI to specialty MH clinics. Additionally, I assist with suicide prevention documentation requirements for the facility and Community Based Outpatient Clinics (CBOCs), support the Inpatient Psychiatry Consultation and Liaison team through consultation and providing psychological services medicine inpatients for brief mental health interventions, and serve as the MHI consultation and liaison point of contact between the Mental Health Patient Service Line and the Rehabilitation and Extended Care Service Line. Throughout my role, I participate in multidisciplinary consultation within the MHI Team and with other clinics and providers.

Research Interests

intersection of trauma and health outcomes such as pain and sleep; integration of technology into healthcare; military psychology

Internship: Minneapolis VA Health Care System, 2000

Postdoc: NA

Academic Appointment(s)

Instructor, Department of Psychiatry, University of Minnesota, 2004

Clinical/ Services Delivery Responsibilities

Assigned to Team Z which serves veterans with Serious Mental Illness (SMI); responsibilities are to provide psychological services to interprofessional team, including individual, family, and group therapy, diagnostic and neuropsychological assessment, coordination of patient services, and consultation to other team providers. Emphasis is on providing mental health recovery-based services and implementing evidence-based practices for serious mental illness. Coordinate Interprofessional Education (IPE) training program centered on Team Z. Member of steering committee and preceptor for VA Longitudinal Undergraduate education (VALUE) training program for medical students; Serve as consultant to other areas of hospital regarding interprofessional education and collaborative practice. Provide clinical supervision to practicum students, interns, post-doctoral fellows and unlicensed staff as requested.

Research Interests

Current clinical and research interests include serious mental illness (SMI), psychosocial rehabilitation, cognitive functioning, quality of life issues, and evaluation of interventions with the SMI population. Additional emphasis on implementation and evaluation of Interprofessional Practice and Education efforts in clinical settings.

Honors and Recognitions

President, American Board of Serious Mental Illness Psychology
Board of Trustees, American Board of Professional Psychology
Member, Specialty Council for Serious Mental Illness
Member, AVAPL Model Curriculum Committee, January 2020-present
Member, Specialty Council for Serious Mental Illness (SMI), April 2019-present
2016 Excellence in Education Award MVAHCS for promoting interprofessional education
VACO-Certified Master Trainer for Social Skills Training for Serious Mental Illness
VACO-Certified Practitioner for Social Skills Training for Serious Mental Illness
Certified Psychiatric Rehabilitation Practitioner (CPRP) through the Psychiatric Rehabilitation
Certification Program of the U.S. Psychiatric Rehabilitation Association (USPRA)
American Psychological Association, member since Fall 1994

Adriana Hughs, Ph.D.

Staff Neuropsychologist, Clinical Investigator

Education

Washington State University, Clinical Psychology, 08/2013

Internship: University of California, San Diego/VA Medical Center Consortium, 201

Postdoc: Oregon Health & Science University

Academic Appointment(s)

Assistant Professor of Psychiatry, University of Minnesota (2016-present)

Affiliate Assistant Professor of Neurology, Oregon Health & Science University (2015-present)

Investigator, Minneapolis VA Geriatric Research Education and Clinical Center (GRECC) (2018-)

Director, Minneapolis Aging & Technology Laboratory (MINTECH) (2019-)

Investigator, Oregon Center for Aging & Technology (ORCATECH) (2015- present)

Clinical/ Services Delivery Responsibilities

Dr. Seelye is a Staff Neuropsychologist in the Mental Health Service Line at the Minneapolis VA Medical Center. She provides neuropsychological evaluations for adults with a wide range of neurocognitive, psychiatric, and medical disorders; provides brief cognitive evaluations as part of the FOCUS cognitive-compensatory skills intervention; analyzes and summarizes service utilization and demographics data to inform and improve clinical service delivery within the Neuropsychology Service and community based outpatient clinics (CBOCs); develops and pilot tests protocols based on empirical literature for comprehensive tele-neuropsychological assessment within the Neuropsychology Service to improve access to neuropsychological services for rural Veterans; provides research and clinical neuropsychology supervision to postdoctoral, intern, and practicum level trainees

Research Interests

Dr. Seelye's program of research is focused on improving earlier detection and monitoring of cognitive and functional (IADL) decline in normal aging, mild cognitive impairment (MCI), and Alzheimer's disease through innovative in-home and mobile activity monitoring technologies. She has examined the underlying cognitive declines that contribute to early functional declines in older adults, and has demonstrated that subtle changes in IADLs that emerge in the transition from normal aging to MCI can be identified via passive in-home monitoring technologies before clinical diagnosis of MCI. Dr. Seelye's research has been independently funded by grants from the national Alzheimer's Association (New Investigator Grant), Oregon Partnership for Alzheimer's disease Research, OHSU NIA-Roybal Center pilot program, Veterans Affairs Research & Development (Merit Award Pilot), and NIH/NIA (R01). Over the last decade, this work has yielded 28 peer-reviewed publications in the areas of cognitive and functional decline in aging, MCI, and AD, ecologically valid cognitive assessment, early detection of cognitive decline in older adults at risk for dementia using in-home activity monitoring technologies, assistive IADL prompting technologies for older adults, and direct-to-home telehealth for dementia care. Recently, Dr. Seelye has established a collaboration with Dr. Snezana Urosevic, MVAHCS Psychologist and Clinical Investigator, to extend her research in new directions by examining trajectories of neural and cognitive abnormalities underlying real-world IADL

functional declines in older adults with bipolar disorder (OABD), a growing and understudied population at risk for accelerated aging and cognitive decline (NIMH multiple PI R01 in preparation). Dr. Seelye also has a growing collaboration with John Ferguson, PhD, an engineer with expertise in data science, on several research projects that incorporate novel technologies into assessment and rehabilitation of cognitive decline in older adults as well caregiver support.

Honors and Recognitions

Adams Dissertation Award, Washington State University
NSF Fellow, IGERT Integrative Training Program in Health- Assistive Smart Environments, Washington State University
International Neuropsychological Society (INS) Merit Award, Waikoloa, HI
Member-International Neuropsychological Society (NS)
Member-Alzheimer's Association International Society to Advance Alzheimers Research & Treatment (ISTAART)
Member-APA Division 40, Society for Clinical Neuropsychology

Selected Presentations (Last Seven Years)

Peer-Reviewed Paper Presentations at Professional Meetings, Conferences, etc.

Merit Review Pilot Project Award for Research on Amyotrophic Lateral Sclerosis, Parkinson's Disease and Alzheimer's Disease

Novel Ecologically Valid Markers of Cognitive and Functional Decline to Improve Early Detection, Diagnosis, and Monitoring of Mild Cognitive Impairment and Alzheimer's disease in Aging Veterans

The goals of this research are to examine innovative real-world assessment tools for identifying the earliest signals of cognitive decline in aging Veterans. The study will use in-home and mobile technologies to identify and monitor changes in routine daily activities such as computer use, medication taking, physical activity, and sleep associated with mild cognitive decline in aging Veterans.

Quinn Kellerman, Ph.D.

EC&R Staff Psychologist

Education

University of Iowa, Clinical Psychology, 12/14/2012

Internship: VA Puget Sound Healthcare System - Seattle Division, 2012

Postdoc: VA Puget Sound Healthcare System - Seattle Division

Academic Appointment(s)

Clinical/ Services Delivery Responsibilities

Provide psychological assessment and intervention to individuals with disabilities, chronic health conditions, and/or end of life needs on the Spinal Cord Injury/Disorders Unit (including individuals diagnosed with MS and ALS). Provide emotional support and psychological interventions as needed to family and caregivers of patients served on this unit. Provide consultation and collaborative care with other members of the interdisciplinary teams.

Research Interests

Adjustment to disability and chronic illness, relationship quality and social support, depression and mortality, trainee competency measurement

Honors and Recognitions

2018 - PM&R Rehabilitation Excellence Award, Minneapolis VA

2015 - Selected as Behavioral Coordinator for STAR-VA training: An interdisciplinary, behavioral approach for managing challenging behaviors in CLC residents with dementia, Minneapolis VA

2014 - 2018 - On-the-spot Awards (4), Minneapolis VA

2014 - Special Contribution Award, Minneapolis VA

Member: APA Division 22: Rehabilitation Psychology, Association for Contextual Behavioral Science (ACBS)

Clinical/ Services Delivery Responsibilities

I am a staff psychologist in the Addiction Recovery Services (ARS) program. This program is the medical center's specialty clinic for veterans seeking substance use disorder treatment, in addition to other addictive disorders. My primary responsibilities include providing individual, couple, and group psychotherapy (e.g., DBT 12-Step Group) in an outpatient setting; conducting psychological assessments; and consultation and coordination of care as a member of a multidisciplinary team. In addition, I will begin supervising trainees in Summer of 2021.

Research Interests

Substance use disorder treatment program evaluation; intersection between treatment fidelity and long-term recovery

Clinical/ Services Delivery Responsibilities

I provide psychotherapy and psychological assessment services to veterans in the Mankato and Rochester Community Based Outpatient Clinics (CBOCs). My clinical interests include integration of psychodynamic (e.g., attachment, objective relations) emotion-focused, and third-wave cognitive behavioral treatments. I hold strong interests in projective and objective personality assessment, relational trauma, and group psychotherapy. I am also interested in social justice matters both within and outside of psychology.

Clinical/ Services Delivery Responsibilities

I provide individual psychotherapy on Team B (i.e., mood disorders clinic). Most of my clients have diagnoses of anxiety, depression, bipolar disorder, PTSD, and personality disorders. I practice from a “short-term dynamic” perspective (akin to AEDP or TLDP), incorporating multiple theories (e.g., experiential, interpersonal, existential, cognitive-behavioral, emotion-focused, EMDR) into an assimilative-integrative framework.

Research Interests

Psychotherapy process/outcome research and theory development, memory reconsolidation in psychotherapy, experiential psychotherapy, psychotherapy integration, psychotherapy of schizophrenia, mental illness stigma, social justice

Honors and Recognitions

Kenneth L. Howard Memorial Award for Best Student Paper (North American Society for Psychotherapy Research) Graduate Student Achievement Award (Miami University, Ohio) Outstanding Senior in Psychology (Michigan State University)

Selected Presentations (Last Seven Years)

Mosher, J. K. (2019, November). “I accept that it happened, and it doesn't define me”: The application of Functional Psychotherapy to a case of childhood sexual trauma. Paper presented at the Society for Psychoanalytic Studies Fireside Presentation in Minneapolis, MN.

Mosher, J. K. (2019, February). Working with defenses from a neuroscience perspective: Memory reconsolidation, a rubric for depth-oriented psychotherapy. Paper presented at the Society for Psychoanalytic Studies Fireside Presentation in Minneapolis, MN.

Mosher, J. K. (2018, March). From the heart to the head: Integrating the emotional and neurological underpinnings of memory into the practice of psychotherapy. Paper presented at the Society for Psychoanalytic Studies Fireside Presentation in Minneapolis, MN.

Mosher, J. K. (2015). An integrative framework for the treatment of PTSD. Keynote address presented at the Second Annual PTSD Conference in Albany, NY.

Jennifer Mrnak-Meyer, Ph.D.

Program Manager/Staff Psychologist

Education

Southern Illinois University Carbondale, Clinical Psychology, 2009

Internship: San Diego VA Healthcare System/University of California San Diego Co

Postdoc: NIAAA Postdoctoral Fellow: Alcohol Research in the Science/Practitioner

Academic Appointment(s)

Adjunct Professor, Saint Cloud State University (2014)

Clinical/ Services Delivery Responsibilities

Program manager and staff psychologist in the Addiction Recovery Services (ARS) program, the medical center's speciality clinic for veterans seeking treatment for alcohol and other drug misuse, in addition to other addictive disorders and other comorbid mental health disorders.

Responsibilities include provision of outpatient individual and couples therapy based in a cognitive behavioral therapy orientation; group psychotherapy; psychological assessment; and supervision of trainees.

As program manager, I have administrative oversight addiction services in the medical center.

Research Interests

General research interests include psychotherapeutic treatments for co-morbid substance use and mood/anxiety disorders, in addition to suicide prevention and treatment.

Honors and Recognitions

2012 Special Contribution Award, St. Cloud VAMC

2010 American Psychological Association NIDA/NIAAA-sponsored Early Career Award recipient

2010 and 2011 Research Society on Alcoholism Junior Investigator Award

Tasha Nienow, Ph.D.

Staff Psychologist

Education

Kent State University, Clinical Psychology, 2004

Internship: UCLA Neuropsychiatric Institute, 2004

Postdoc: NSRA Training Grant - Psychological Research on Schizophrenic Condition

Academic Appointment(s)

Assistant Professor of Psychiatry, University of Minnesota Medical School, 2007

Associate Graduate Faculty, Minnesota State University, Mankato 2019

Clinical/ Services Delivery Responsibilities

Family Psychoeducation - Multiple Family Group Therapy and Behavioral Family Therapy

Family Education - Support and Family Education (SAFE)

Individual therapy & care coordination to individuals with psychotic and mood disorders

Skills-training groups for individuals with serious mental illness (Cognitive Behavioral Social Skills

Training; Social Cognition & Interaction Training).

Couples Therapy - Integrative Behavioral Couples Therapy

Research Interests

The primary aims of my research program are 1) to understand the cognitive underpinnings of poor social functioning in schizophrenia, 2) to evaluate the efficacy of psychosocial interventions for serious mental illness, with a recent focus on cognitive and social cognitive training techniques and neuromodulation, and 3) to elucidate the mechanisms by which psychosocial interventions exert their impact on symptoms, cognition, and functional status in patients.

Elizabeth Possis, Ph.D.

Staff Psychologist, Primary Care Mental Health Integration

Education

University of Wyoming, Clinical Psychology, 08/06/2010

Internship: Minneapolis Veterans Affairs Health Care System, 2010

Postdoc: Minneapolis Veterans Affairs Health Care System

Academic Appointment(s)

Adjunct Assistant Professor, Dept. of Psychology, University of Minnesota

Clinical/ Services Delivery Responsibilities

Dr. Elizabeth Possis is a staff psychologist on the Primary Care Mental Health Integration Team. Her duties include providing mental health/behavioral health services to primary care patients, with services including targeted assessment and brief evidence-based treatments such as CBT, ACT, and motivational interviewing. She develops health behavior programming and provides consultation and support to medical staff in Primary Care, MOVE, and Diabetes Case Management. Her clinical interests include the treatment of anxiety disorders and the utilization of behavioral health services in primary care.

Research Interests

Research interests include the nature and treatment of anxiety disorders, the development, evaluation, and dissemination of evidence-based treatments, and increasing utilization of behavioral health services in primary care.

Honors and Recognitions

2019 Minneapolis VA Civil Servant of the Year

Selected Presentations (Last Seven Years)

Rebecca Stinson, Ph.D., ABPP

Staff Psychologist

Education

University of Iowa, Counseling Psychology, 12/2013
Internship: Minneapolis VA Health Care System, 2013
Postdoc: Program in Human Sexuality/Center for Sexual Health

Academic Appointment(s)

NA

Clinical/ Services Delivery Responsibilities

Provide psychological assessment as well as individual and group psychotherapy treatment within the psychiatry partial hospitalization program. Provide individual and couples treatment interventions for sexual health, gender identity, and relationship concerns. Provide consultation for VA providers nationally regarding the provision of transgender-related health care.

Research Interests

Sexual and relationship therapy; Transgender health; Sexual health

Honors and Recognitions

World Professional Association for Transgender Health - member

Selected Presentations (Last Seven Years)

Snezana Urošević, Ph.D.

Staff Psychologist

Education

University of Wisconsin--Madison, Clinical Psychology, 08/24/2008

Internship: C.J. Zablocki VA Medical Center, Milwaukee, WI, 2008

Postdoc: C.J. Zablocki VA Medical Center, Milwaukee, WI

Academic Appointment(s)

Assistant Professor, research tenure-track (W), Department of Psychiatry, University of Minnesota, since March, 2016

Clinical/ Services Delivery Responsibilities

Dr. Urošević is staff psychologist on Team B providing evidence-based psychological assessment and individual and group psychotherapy to Veterans with mood disorders, including bipolar disorders, and other complex psychiatric conditions and presentations. She is also a member of Clinician Investigator Team (CIT) within Mental Health Service Line.

Research Interests

Dr. Urošević's program of research focuses on understanding neurobehavioral abnormalities in bipolar and related disorders across the lifespan. She has investigated reward and cognitive control systems' abnormalities in bipolar disorders using neuroimaging, electroencephalography, behavioral tasks, and self-report measures. She is in particular interested in investigating predictors of bipolar illness course, as well as understanding how neural and behavioral abnormalities change across lifetime in bipolar disorders.

Honors and Recognitions

Association for Behavioral and Cognitive Therapies, Full member

Association for Psychological Science, Full member

Biological Psychiatry, Full member

Complete neuropsychological evaluations and provide feedback to veterans with a history of brain injury, neurological/psychiatric illnesses, and learning disabilities. Facilitate and manage a cognitive rehabilitation group and a cancer education and support group.

Research Interests

Participate in research for traumatic brain injury, serious mental illness, and cognitive rehabilitation. Manage a database that inputs information on every veteran that has completed a neuropsychological evaluation at the Minneapolis VAHCS.

Honors and Recognitions

International Neuropsychological Society

American Academy of Clinical Neuropsychology

Selected Presentations (Last Seven Years)

Dorociak, K.E., Baumgartner, S.E., Yamada, T.H., Seelye, A. M., & Lamberty, G.J. (2019, June). Neuropsychological Performance in Veterans Following a Cognitive Rehabilitation Group. Poster presented at the American Academy of Clinical Neuropsychology annual meeting, Chicago, IL.

Nienow, T., Yamada, T., Gilmore, C., Lamberty, G., Nelson, N., MacDonald, A., Thuras, P., & Lim, K. (2018, January). Acceptability and Feasibility of Repeated Transcranial Direct Current Stimulation (tDCS) as an Intervention for Individuals with Mild Traumatic Brain Injury. Poster presented at the Minnesota Spinal Cord and Traumatic Brain Injury Research Symposium, St. Paul, MN.

Seelye, A., Mattek, N., Austin, J., Alioto, A., Moseley, S., Anderson, C., VanVoorst, W., Clason, C., Doane, B., Yamada, T., Witter, P., & Kaye, J. (2018, February). Cognitive Correlates of Unobtrusively Monitored Medication Adherence in Older Adults. Paper session presented at the annual meeting of the International Neuropsychological Society, Washington DC.

Ellefson, S.E., Kisser, J.E., Yamada, T.H., Seelye, A.M., Doane, B.M., & Lamberty, G.L. (2017, June). Improvements in veterans' subjective psychosocial performance following a cognitive rehabilitation group: A pilot study. Poster presented at the American Academy of Clinical Neuropsychology annual meeting, Boston, MA.

Kisser, J.E., Ellefson, S.E., Yamada, T.H., Seelye, A.M., Doane, B.M., & Lamberty, G.L. (2017,

June). Improvements in veterans' cognitive performance following a cognitive rehabilitation group pilot study. Presented at the annual American Academy of Clinical Neuropsychology annual meeting, Boston, MA.

Anderson, C., Miller, I., Doane, B., Yamada, T., Lamberty, G., and Armstrong, M. (2013, June). Neurobehavioral symptom inventory scores as a function of VA comprehensive TBI evaluation. Poster presented at the annual American Academy of Clinical Neuropsychology, Chicago, IL.

Miller, I., Yamada, T., Anderson, C., Doane, B., Lamberty, G., and Armstrong, M. (2013, June). Utilization of Rehabilitation Services by Veterans Undergoing Comprehensive TBI Evaluation. Poster presented at the annual American Academy of Clinical Neuropsychology, Chicago, IL.

Denburg, N. L., Boles-Ponto, L., Menda, Y., Nguyen, C. M., Yamada, T., Magnotta, V., & Schultz, S. K. (2013, May). The neural signature of the long-term effects of chemotherapy in aging.

Selected Publication (Last Seven Years)

Dorociak, K.E., Bernstein, J.P.L., Baumgartner, S.E., Hughes, A.M., Duff, K.D., Lamberty, G.J., & Yamada, T.H. (under review) Efficacy of a CogSMART-based Cognitive Rehabilitation Program in Veterans with Mental Health Diagnosis. *Applied Neuropsychology*.

Yamada, T. H., Tranel, D., & Denburg, N. L. (2017). Approach to the patient with memory impairment. In J. Biller (Ed.), *Practical neurology*. Philadelphia: Wolters Kluwer.

Ali, S., Yamada, T., & Mahmood, A. (2015). The relationships of the Practice of Hijab, Workplace Discrimination, Social Class, Job Stress and Job Satisfaction among Muslim American Women. *Journal of Employment Counseling*, 52, 146-157.

Nguyen, C., Yamada, T. H., Denburg, N. L., Beglinger, L. J., Cavanaugh, J., & Schultz, S. K.

(2012). Cognitive features ten or more years after successful breast cancer survivor: Comparisons across types of cancer interventions. *Psycho-Oncology*, 22, 862-868.

Yamada, T. H., Denburg, N. L., Beglinger, L., & Schultz, S. K. (2010). Neuropsychological outcomes of older breast cancer survivors: Cognitive features ten or more years after chemotherapy. *The Journal of Neuropsychiatry and Clinical Neurosciences*, 22, 48-54.

Denburg, N. L., Weller, J. A., Kaup, A. R., LaLoggia, A., Yamada, T. H., Cole, C., & Bechara, A. (2009). Poor decision-making among older adults is related to elevated levels of neuroticism. *Annals of Behavioral Medicine*, 37, 164-172.

Funded Research (Last Seven Years)

Work as a Co-Principal Investigator on a funded project: "TDCS as an Intervention for Patients with Traumatic Brain Injury"

Work as a Consultant on a funded project: "Restoration of Cognitive Function with TDCS and Training in Schizophrenia"

Other Professional Activities

Cognitive Rehabilitation Group Leader
Cancer Education and Support Group Facilitator
Co-lead MH Diversity Team
